

Manzanillo

Manzanillo's Marina (nautical harbor)

Beautiful port who's growth has benefited the travel industry with the construction of important hotel complexes, as well as top level golf courses.

The Sailfish Sculpture by the Mexican artist Sebastián stands out splendidly at the end of the boardwalk in the "heart" of the city. This work of art does justice to the harbor, which is considered as the "Sailfish Capital of the World".

Its tranquil beaches, like La Audiencia and San Pedrito, offer relaxation and a chance to dream, while its open beaches, like Campos and Olas Altas, are an invitation to surf and live to the extreme.

Sport fishing

Sport fishing

Manzanillo is known as the Sailfish Capital of the World. It is the host city for the Dorsey International Tournament that takes place in November, and as a result, sport fishing became internationally popular. Sailfish and dorado can be caught all year round, while marlin and tuna fish abound in March. Manzanillo's advantage over other harbors is that a short 15-minute trip from land is all that is required for visitors to start fishing.

Activities

Golf

Golf is a popular sport in Manzanillo. This port offers extraordinary golf courses where several international tournaments have been held, and where some of the world's greatest golfers have played, like Las Hadas Golf Course, Isla Navidad Golf Course and Club Santiago Golf Course.
