

Donny

Marie

For adoption

DONNY & MARIE

- Approx. 8 months old
- Brother and sister
- Donny 18 kilos; Marie 16 kilos

Meet Donny and Marie - a dynamic duo of sweetness and charm, ready to find their foster or forever homes.

These siblings arrived at Casa de las Patas Santuario Animal as tiny pups, found quietly tucked beneath Maurie's camper after being abandoned on the property. From that humble beginning, they've blossomed into playful, gentle companions.

🐾 Over the past few months, Donny and Marie have:

Learned to play respectfully with cats

Made friends with older dogs

Started leash training and picked up polite habits (including no barking)

Become crate-trained at night and are thriving in good health

They're up-to-date on all vaccinations (including Parvo and Distemper), sterilized, dewormed. They'll grow into medium-sized dogs. While they can be adopted separately, Donny and Marie share a special bond that's hard to miss—like a harmony that just works.

They'll need a secure outdoor space to run, or regular leash walks to keep their tails wagging and spirits high.
